--

For completion by the client on acceptance:

Quote Ref: OSQ- 9101 ID No: 18189

I accept this proposal and wish to proceed with works as outlined above. Either I have attached a cheque for the above deposit amount or I will telephone Waterlink on **0333 000 0058** to provide debit/credit card details for the above deposit amount. I understand an invoice for the total, less the deposit, will be raised upon completion.

Signing this order confirms your acceptance of the above and forms a binding contractual agreement between yourself and us. If a date to start work has not already been agreed we shall contact you to arrange a suitable start date.

TERMS & CONDITIONS OF BUSINESS

1. Quotations are open to acceptance for 3 months from date of issue. Acceptance of a quotation forms a binding contract between the customer and Waterlink.
2. All works shall be in accordance with Water Supply [Water Fittings] Regulations 1999.
3. Repair work carried out by Waterlink is guaranteed against failure of materials or workmanship for 12 months from date of repair unless otherwise stated. New services and supply renewals are guaranteed for 5 years from date of installation.
4. Remittances shall be due within 30 days of invoice. All materials and sundries supplied shall remain the property of Waterlink until remittance is received in full.
5. The client is to arrange access for employees, plant and materials in all circumstances.
6. Unfortunately if we are delayed from completing the works whilst awaiting instruction or access by the client it will be necessary to charge standing time at an hourly rate. Costs are available upon request.
7. The client is responsible to inform Waterlink of any material facts or circumstances that may affect the safety of any person working on the client's property or premises, including knowledge relating to existing underground apparatus.
8. If, in our view, existing apparatus is badly corroded, damaged beyond repair, or is impractical to repair, we may respectfully suggest consideration is given to its renewal. In this case we shall attempt a temporary repair to ensure continuation of supply only.
9. Although not regarded as a safe means of earthing and prohibited since 1966, buildings built before this date may be earthed using a metal water service. The use of plastic pipe and materials will interrupt such an arrangement and we strongly advise the client contacts their local electricity supplier or an approved electrician in advance.
10. Unless otherwise stated, Waterlink shall not guarantee the integrity of any existing pipework infrastructure or water fitting, and shall not accept liability for consequential losses associated therewith.
11. Excavations will be backfilled using existing excavated materials to a safe condition without obstructions to vehicular or foot traffic [unless otherwise stated]. Permanent reinstatement materials are from local suppliers to match as closely as possible the existing surface. There is no guarantee that the weathered materials, colour, or texture will be matched.
12. Waterlink shall repudiate any guarantee claims arising from wilful neglect, accidental damage or malicious intent.
13. Where works are cancelled within 24 hours of the proposed start time a cancellation fee of £250+VAT will be charged.

Thank you for your business.
